

PROJECT	West End Lane Bridge
LOCATION	West Hampstead London
CLIENT	Network Rail and LB Camden
DATE	2004
COST	£1,000,000
SCOPE OF SERVICES	Feasibility Study, Design Consultation, Scheme Implementation, Tender Procurement, Site Supervision, Project Management and Agreement of Contractors Accounts

This bridge failed to meet current standards of weight and strength so we have re-constructed the deck using the existing brick arches as formwork, building a new re-inforced concrete deck.

Throughout the construction period, service diversions had to be put in place together with bus route diversions and take into consideration the requirements of local residents.
